Enhanced Medicaid Features

CMS-0057, also known as the CMS Interoperability and Prior Authorization Final Rule, is designed to make it easier for you to access care, understand your health information, and experience fewer delays caused by prior authorizations.

Benefits for Members

- On-demand access to your health information.
- Faster prior authorization decisions.
- View your prior authorization status.
- Your doctors can access your health information.
- Better care coordination when switching health plans. You can choose to share up to five years of information with your new health plan.
